

SmartScout *Elite*
You Can't Manage What You Can't See.

The Powerful, Rewards-Driven Fleet Tracking Solution that Drivers Love!

With instant-install OBD-II plug-in devices, intuitive cloud-based management portal, and focus on gamification and driver rewards, businesses everywhere are moving up to SmartScout to improve fleet and field operations, reduce costs, and get workers engaged in building a culture of safety.

Managers love it.

SmartScout is incredibly easy to use—just plug it in. No installation costs, no downtime. Data pours into the secure management portal, giving instant insight and reporting that's easy to read and easy to use. Customers say it's the most user friendly portal they've ever worked with.

Technicians love it.

SmartScout lets you move from “gotcha” to “great job!” Unlike other fleet tracking solutions and safety programs, which are punitive, our unique approach to Driver Rewards gets technicians engaged and motivated to drive safely and win. And when they compete, you win.

Bottom line: you'll love SmartScout!

You'll manage a safer, less costly and more efficient fleet. No gotchas, low up-front costs. For one price you get it all: data and reports for control and savings, driver safety scores and rewards, vehicle maintenance and much more.

Driver Rewards

- Easy to Administer
- Gift Reward Card Redeemable at Major Retailers
- Reward & Retain your Employees

Features and Capabilities

Fleet Operations

Managing fleet and field operations takes a leap forward with SmartScout.

- Real-time Vehicle Location/Status

* requires add-on or services from SmartScout engineering or data sciences teams ** ask SmartScout for specific makes/models

Add-on Features

Boost the data and control you get from SmartScout.

- FuelSaver™ Alerts to Nearest Cheapest Fuel
- Upgrade to full SmartScout Fleet Mobile: Distracted Driving Prevention, Messaging, Time Cards, Utilities and More
- Bluetooth Beacon Occupant Recognition
- Cross-border Roaming in Canada, Mexico, USA

Features and Capabilities for Larger Fleets

For customers with large fleets, SmartScout offers features and capabilities that give management the data and control needed to manage fleet and service operations across a large operation and multiple locations.

- Large account features: hierarchical groupings (location, groups, vehicle types); role-based permissions; and visual clusters on the live map for concentrations of vehicles in locations
- A rich set of APIs for integration, pre-built integrations with fuel card and fleet management partners, and an engineering team to assist with integration and customization.
- A Customer Success Team acts as an extension of your fleet operations, getting involved from day one to ensure a successful deployment and ongoing satisfaction.
- SmartScout's Data Science Team is available to help analyze the immense data set captured through SmartScout to generate new insights into safety, productivity, utilization, routing, and maintenance. Industry and time comparisons yield significant improvements.
